# Andrew Clemente

Passionate & experienced web developer, UI/UX designer, and entrepreneur.
Occasional amateur photographer & videographer. Craft beer and live music supporter.

Rhode Island, USA / hello@andrewclemente.com / 401.330.0229

As a longtime technology enthusiast, I have been involved in web design & development, mobile app design, and many other creative mediums since 2005. I have had success with an assortment of personal projects, rebuilt an entire university website, and served as lead developer for both a small marketing agency and an industry leading global company.

I have done this while being entirely self-taught in programming and nearly every Creative Cloud application. I am a highly self-sufficient, creative problem solver with a shared passion for design & development.

2008-2012
Starts @ URI pursuing BS in
Entrepreneurial Management

SKILLS

As an entirely self-taught designer & developer, my skill set is always evolving. I've probably at least read about {insert framework here} and/or tried it once, but my level of experience directly relates to what I've needed in past projects. I pick up quickly and am always looking to improve and advance my skills. Here are a few I've used to this point.

Languages & Web:
English / PHP / MySQL / HTML / CSS / WordPress /
WooCommerce / Salesforce / jQuery / GIT

DevOPS: WHM / CentOS / Linux / Bower / NPM / Terminal

Frameworks: Bootstrap / Ionic / Foundation

Applications: Photoshop / Sketch / InDesign / Illustrator /
Dreamweaver / Premiere Pro / After Effects

APIs: Google Maps / Google Places / other REST APIs
